

I would like to take this opportunity to welcome you to our CERT (Community Emergency Response Team) web site.

Following a major disaster, our professional firefighters and medical team may not be able to meet the demand for these services that is where people have to rely on their neighbors. That is where CERT comes in. We want you to be trained to be able to help your neighbor not be a victim of the disaster. The CERT course will benefit any citizen who takes it. This individual will be better prepared to respond to and cope with the aftermath of a disaster.

Additionally, if a neighborhood wants to supplement its response capability after a disaster, local citizens can be recruited and trained as teams that, in essence, will be auxiliary responders. These groups can provide immediate assistance to victims in their area, organize spontaneous volunteers who have not had the training, and collect disaster intelligence that will assist professional responders with prioritization and allocation of resources following a disaster. We want you to become acquainted with our site and hopefully be an interested participant. CERT is here for you!!

Please call me at (972) 780-9810 or email me at ken-pat@sbcglobal.net or through this Web site and the great City of Duncanville. We conduct training for you. You may contact me for this information, and it will also be posted on this Web site as will our training schedule. Thank you for visiting our Web site.

I hope to see you in one of our upcoming classes.

Pat Weaver

CERT Coordinator
City of Duncanville
